

Apache Kafka®

FULLY HOSTED AND MANAGED SERVICE

More than 80% of the Fortune 500 rely on Apache Kafka® for message streaming and queueing. Kafka is second to none in its ability to support robust, event-driven architectures. But it's also a sophisticated piece of technology that can require major investment to manage effectively.

With NetApp® Instaclustr for Apache Kafka, you don't have to hire multiple engineers or spend months planning a deployment. Instead, you can get a production-ready Kafka cluster with the click of a button, backed by our industry-leading SLAs and expert Support team. Offload managing Kafka to us so you can focus on innovation in the rest of your application stack.

WHY CHOOSE INSTACLUSTER FOR OPEN SOURCE?

Worldwide team

Largest and most experienced team of open source operators in the industry

Seamless migration with zero downtime

From proprietary (e.g. Confluent) or self-managed Kafka clusters

Experienced management

More than 360 million node hours of experience managing open source technologies including Kafka

Source code experts

Collaborative expertise in Kafka with a dedicated committer on staff

100% Open source

We'll never charge you license fees or lock you in with hidden, proprietary features

Comprehensive data platform

Seamlessly host and manage Apache Cassandra®, Apache ZooKeeper™, Apache Kafka® Connect, OpenSearch®, Valkey™, PostgreSQL®, ClickHouse®, and Cadence®

Features

- 100% Open source Apache Kafka
- Easy-to-use management console
- Core software bug fixes included
- Supported software bug fixes included
- Repair coordination built-in
- Managed mirroring
- Dedicated ZooKeeper/KRaft nodes
- Single-tenant clusters by default
- Terraform-based provisioning
- Prometheus monitoring API
- Provisioning and monitoring RESTful APIs
- Graviton2, Graviton3, and Intel nodes available

SLAs

- Up to 99.999% availability
- Read/write latency

Support

- 24x7 expert coverage included
- Guaranteed 15 minute response time, 24x7 work to resolve critical issues

Available add-ons

- Managed Apache Kafka® Connect
- Managed Apache Kafka MirrorMaker 2
- Apache Kafka/Karapace
- AWS PrivateLink
- GCP Private Service Connect
- Private Network Cluster
(no publicly routable IPs for nodes)

Flexible hosting options

- AWS
- Microsoft Azure
- Google Cloud
- Digital Ocean
- IBM Cloud
- On-prem

Security and compliance

- SOC 2 certified
- PCI-DSS available
- HIPAA available
- GDPR
- ISO 27001 and ISO 27018 certified

NetApp® Instaclustr specializes in open source technologies for enterprises. Our managed platform streamlines data infrastructure management, backed by experts who ensure ongoing performance, scalability, and optimization. This enables companies to focus on building cutting edge applications at lower costs.
